2.26.18 National Day of Action

On Feb. 26, The U.S. Supreme Court will hear oral arguments in Janus v. AFSCME, a case funded by the wealthy 1% corporate elites who profit most when working people are prevented from joining together and using our power in numbers.

On this day, join workers across the nation to show we will not be divided. We win stronger contracts and can better serve students when we stick together!
