

Prop 1A Locks in the Worst of Times

CSUEU Members Have Been Fighting Against Budget Cuts...

- We've seen \$31 billion in California budget cuts over the past three years
- We know, better than anyone else, that *lives are at stake* if more public services cuts are made
- Funding the CSU is an investment in our state's future
- Californians can't afford more higher education cuts!

...Prop 1A Locks In These Cuts, And Makes Them Permanent

- Prop 1A is a permanent cap on higher education, K-14, our healthcare and other vital public services that California needs
- Prop 1A will take billions away from public services that people need right now, in the worst economic times since the Great Depression.

Vote NO on 1A: *Locks in the Worst Times*

How Prop 1A Hurts the CSU

- Prop. 1A would institutionalize and make permanent more than 10 years of cuts to the CSU, with no prospect of ever substantially increasing state funding to the university
- It diverts huge amounts of money from the General Fund over to a Rainy Day Fund, while making it easier for the governor to raid the General Fund
- This is potentially disastrous for the CSU, because the system's funding comes from the General Fund
- Vote no on 1A!
